

Safety Light/Flashlight

Each Safety Light combines a full-size flashlight and a floodlight/flashing safety light in a compact, light-weight package. Two body mounted switches control the lighting functions. The top button powers the tight-beam, long-throw 150 lumens flashlight in either momentary or constant-on mode. The bottom button controls the safety light array with options for constant-on or flashing/alternating (depending on model) operation. Power comes from 4 – AA batteries (included).

150 Flashlight Lumens

120 Safety Light Lumens

- Constant-on or flashing safety light
- Long-throw flashlight beam
- Long run-times
- Powered by 4 AA batteries (included)

Momentary/Constant Flashlight

Dual-Color Constant

Dual-Color Alternating

NSP-1170

High-efficiency deep parabolic reflector
